The [Near Surface Geophysics Group \(NSGG\)](#) annual general meeting has traditionally been held at leading industry events which promote the application of geophysical methods. This year is no exception; it brings me great pleasure to announce that the committee of the NSGG cordially invite you to attend our forthcoming annual general meeting which is to be held at GeoBusiness 2018.

GeoBusiness is a growing annual conference and exhibition which showcases the tight synergy between geophysical and geospatial practices within the engineering community. Drawing a diverse range of delegates comprising of engineers, consultants and service providers the show is the perfect platform from which to hold the NSGG AGM.

The AGM is the occasion at which the committee is elected, and now is a good time for you to consider whether you may have a role to play on the committee. This year the position of Chairman is open for election. Should you be interested please send an email to info@nsgg.org.uk.

Convenors: Matthew Guy (Geomatrix Earth Science Ltd)
