

NSGG Field Exhibition 2017

Date: Thursday 11th May 2017

Venue: [NSGG Geophysical Test Site](#), Leicester University

Registration fee: £20

£15 concessions (Full time student delegates & senior citizens)

Note that registration is joint with the Postgraduate Research Symposium

Lunch is included for preregistered delegates. Please send dietary preference to matt@geomatrix.co.uk

10.00—1600 Live demonstrations of geophysical equipment on the [Near Surface Geophysics Group \(NSGG\)](#) test site, with opportunity for hands-on trials.

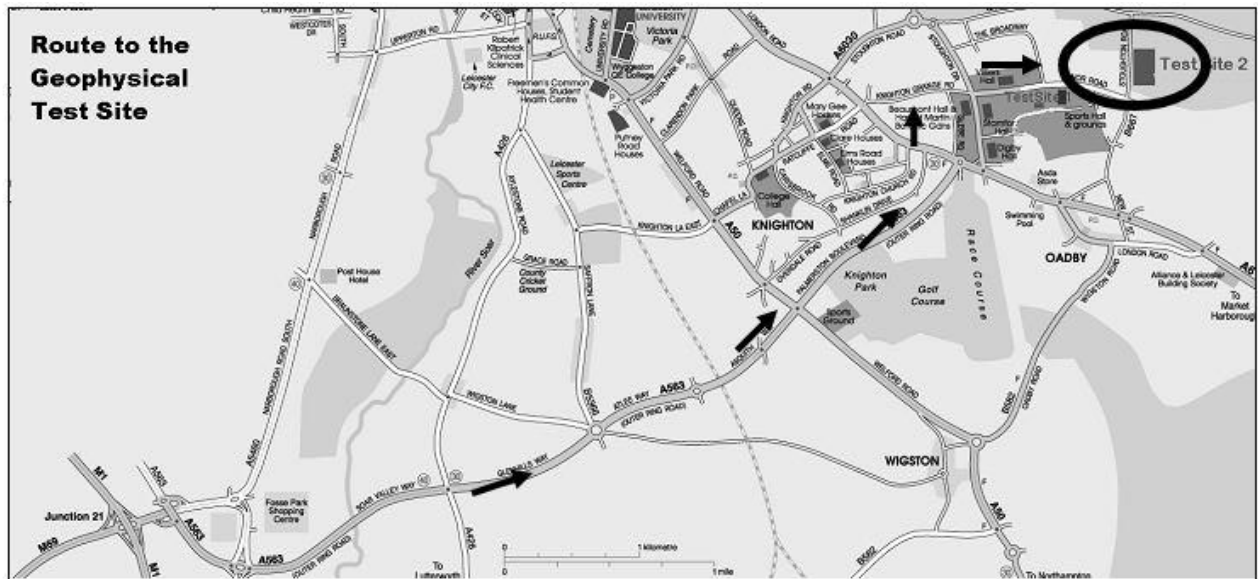

The 2017 NSGG field exhibition promises to be an exciting event with an unprecedented number of geophysical instrument manufacturers and suppliers in attendance. 2016 saw a number of new geophysical instruments released into the market, many of which will be demonstrated at the field exhibition.

Equipment demonstrations:

- Seismic vibrating source for near surface P and S Wave reflection.
- Multi Transmitter and Receiver ERT system.
- Multi-channel Magnetometer arrays.
- New GPR systems.
- Time Domain electromagnetic system for UXO characterization.
- Resistivity and Induced polarization inversion software.

Confirmed Exhibitors:

Allied Associates	Bartington
Geomatrix Earth Science Ltd	Geoscan Research
Geosoft	Iris Instruments
Guide Line Geo (Mala/ABEM)	Seismic Mechatronics
Sensys	Utsi Electronics

Convenors: Matt Guy (Geomatrix Earth Science Ltd)
Max Moorkamp (Leicester University)

This year the Field Exhibition will be held in conjunction with the Postgraduate Research Symposium which will be held on Friday the 12th of May in the Cricket Pavilion. The registration fee permits delegates access to both events.
